PROFESSIONAL SUMMARY

Operations professional with 20+ years of experience working directly with C-level executives and founders across corporate, cultural, and public sectors. Combines executive support with operations coordination, process standardization, and cross-functional collaboration. Translates business needs into structured, documented, and scalable workflows. Identifies gaps, structures information, and ensures processes are usable in real execution contexts, including Agile environments. Works remotely using digital tools and AI-assisted workflows. Bilingual in English and Spanish.

CORE COMPETENCIES

Executive & C-Level Support	Agile Environments (Scrum, ceremonies, tracking)
Operations Coordination & Process Design	Workflow Standardization & Optimization
Business Process Documentation	Sensitive Information & Confidential Records
Functional Analysis & Requirements Definition	International Vendor & Supplier Management
Quality Assurance — Process & Deliverables	AI-assisted Workflows & Remote Digital Tools
Cross-functional Collaboration	Bilingual Communication — English / Spanish

PROFESSIONAL EXPERIENCE

Operations & Process Analyst · *Vitality Global* Nov 2025 – Present | Remote · Fixed-term contract

Documented the end-to-end business process for an MVP launch, working directly with founders to align product development with market needs and operational requirements. Identified six out-of-scope scenarios that prevented pre-launch gaps and critical risks that would have led to premature launch, allowing the team to reach production with stronger operational readiness. Mapped scalability risks and defined monitoring criteria to anticipate bottlenecks, ensuring functional coherence between business needs and system behavior. Refined onboarding structures (+50% data quality), standardized bilingual sales processes, and developed structured FAQ documentation to reduce friction across sales and onboarding. Executed exploratory quality validation — 17 issues identified and tracked to resolution — and reviewed product functionalities from a functional and process perspective, aligning business requirements with implementation and coordinating cross-functionally in a remote environment.

Operations & Functional Analysis Practice · *Freelance & Continuous Training* 2021 – Oct 2025 | Remote

Worked on operations, process documentation, and functional analysis through a combination of structured training programs and project-based freelance collaborations, applying quality assurance principles to process design and execution. Completed multiple certifications in functional analysis, quality assurance, Agile methodologies, and process coordination, building a technical foundation aligned with current private-sector requirements. Contributed to two web-based applications (restaurant and real estate sectors), identifying and tracking 66 functional issues to resolution across both projects (34 + 32), including documentation and follow-up through full resolution cycles. Work included business process documentation, workflow structuring, requirements definition, coordination within Agile environments, and development of user documentation and operational guidelines to support execution consistency.

Senior Operations Coordinator · *Argentina's National Ministry of Culture* 2013 – 2024 | On-site / Hybrid

Served as the central operational reference across multiple secretariats and directorates, ensuring workflow continuity and process consistency across four national administrations and six leadership transitions. Managed 500+ high-complexity administrative files annually with direct legal and budgetary impact, coordinating across 10+ departments and external stakeholders. Led process optimization and reporting standardization initiatives: file rejection reduced from 25% to 5%; processing time reduced by 70% (10 to 3 days per file). Maintained operational continuity in a high-turnover environment, stabilizing workflows and ensuring consistent execution under changing conditions. Certified GDE trainer and designated system reference for 20 staff members, ensuring accuracy and compliance in a legally binding, non-reversible documentation environment.

Office & Operations Coordinator · *Ing. Juan O. Durante, Land Surveying Studio* 2010 – 2013 | Córdoba, Argentina

Managed approximately 25 concurrent cases across all stages of cadastral approval processes, including legal documentation analysis and property title research covering historical records from the mid-19th century. Designed and implemented the studio's complete administrative infrastructure, including tracking systems and workflow monitoring tools. Improved overall procedural efficiency by approximately 65%, reducing approval timelines well below standard ranges. Identified technical inconsistencies in survey plans — present in 70% of files reviewed — and resolved minor corrections directly in AutoCAD after independently acquiring the necessary skills.

Senior Bilingual Executive Secretary & Operations · *Tango Rally Team (Linal S.A.)* 2006 – 2007 | On-site

Managed 100% of international import and export operations for a professional rally competition team, coordinating approximately 20 import/export actions across multiple countries. Served as the primary English-speaking liaison with Mitsubishi Motors Japan and international suppliers in New Zealand, Italy, and the USA. Coordinated end-to-end travel and logistics for pilots, mechanics, and all team personnel across national and international competitions.

Senior Bilingual Executive Assistant to the CEO · *Neverland — Ares S.A. / Galactronic S.A.* 1994 – 2001 | On-site

Progressive role across two legal entities within the same business group, from first dedicated English-speaking administrative contact to sole executive assistant to the CEO. Neverland operated a leading network of family entertainment centers across major shopping malls in Argentina, with international supplier relationships including Sega, Nintendo, Disney, and Namco. Managed end-to-end international communication with 40+ suppliers across the USA, Europe, and Asia — covering procurement, contracts, invoicing, import logistics, and freight coordination — handling 95% of all foreign communications on behalf of executive leadership. Provided full executive support to the CEO including complex international travel coordination, real-time problem-solving across multiple time zones, and on-site support at IAAPA conventions in the USA. Also coordinated CEO's leadership roles as President of AAPA and ALAP. Translated 100% of technical manuals, installation instructions, and commercial contracts from international suppliers.

Senior Bilingual Executive Secretary · *PricewaterhouseCoopers (PwC)* 1997 – 1998 | Córdoba, Argentina

Provided executive and administrative support to four senior managers at the Córdoba regional office, operating within PwC's internationally recognized quality, documentation, and compliance frameworks. Coordinated documentation, reporting, and administrative workflows with consistency and precision under high-accountability standards. This experience established a lasting professional approach centered on rigor, traceability, and disciplined execution.

EDUCATION

Diploma in Cultural Management & Production · *Universidad Blas Pascal* 2009 – 2010

Project planning and management, event production, team coordination, budget management, logistics, legal and administrative aspects, sponsorship, and cultural communication. Final thesis on Argentine customs regulations affecting the international commercialization of artworks.

Degree — Visual Arts Teacher, Sculpture Specialization · *Escuela Superior de Artes Visuales 'Prof. López Carnelli'* Paraná, Entre Ríos

Organizational Management & Leadership Studies (Incomplete) · *Universidad Nacional de San Martín (UNSAM)*

Institutional management, human resources, leadership and negotiation, marketing, and organizational law.

Engineering Studies — Construction (Incomplete, 4 years) · *Universidad Tecnológica Nacional*

Developed strong analytical and technical reasoning foundations.
